

Demo Model Opportunities

Our training academy is a learning environment and as such, model appointments are quite different to being treated in a clinic environment. The focus is very much on the trainee rather than the model, and conversations between trainer and trainees cover many topics including anatomy and adverse events management, sometimes to the exclusion of the model. At other times, trainees will be intensely focused on you and your face which can make some people feel uncomfortable.

The facial assessment process is detailed and descriptive; the focus of the trainees is to identify and describe what they are seeing, and this may be done without the learned diplomacy you would experience in the clinic setting. As a result, we need our models to be resilient, not quick to take offense, no needle phobias and not prone to fainting. Please make sure you have had something to eat and drink prior to your appointment and that you are healthy and well on the day.

You are asked to arrive 10 – 15 minutes before your appointment time and ensure all your paperwork has been completed. Please note: models who cancel their appointment at the last minute or fail to show will not be offered the opportunity for treatment as a model again, as we need to make sure trainees have enough models to treat throughout the course.

Appointments generally run to time; however, given this is a training environment, appointments may run behind or be cancelled with short notice. In this event you will be offered another opportunity to be a model for the procedure of interest.

Models are offered treatments within the scope of this training course. You may have more than one area treated; areas to be treated are dependant on the learning needs of the trainees. **You are given a 30% discount on your model treatment compared to our usual clinic prices.**

While all treatments are overseen by the trainer, results may vary. Most people are happy with the results of their treatment; however, after treatment if you want more product or a different result, this will be at your own cost and treatment with an experienced practitioner can be booked through our TruYou Appearance Medicine clinic or website.

If you are interested in being a demo model, please email NCA.models@gmail.com, and we register your details on our model database and be in touch when an opportunity becomes available.
